Evidence of perfection: Evidence of perfection of a security interest may include documents showing that a security interest has been filed or recorded, such as a mortgage, lien, certificate of title, or financing statement.

Information that is entitled to privacy: A Proof of Claim form and any attached documents must show only the last 4 digits of any social security number, an individual's tax identification number, or a financial account number, only the initials of a minor's name, and only the year of any person's date of birth. You may later be required to give more information if the trustee or someone else in interest objects to the claim.

Priority claim: A claim within a category of unsecured claims that is entitled to priority under 11 U.S.C. §507(a). These claims are paid from the available money or property in a bankruptcy case before other unsecured claims are paid. Common priority unsecured claims include alimony, child support, taxes, and certain unpaid wages.

Proof of claim: A form that shows the amount of debt the debtor owed to a creditor on the date of the bankruptcy filing. The form must be filed in the district where the case is pending.

A secured claim may be secured to more than the value of the property; normally may be an unsecured claim. But exceptions exist; for example, see 11 U.S.C. § 1322(b) and the final sentence of 1325(a).

Examples of liens on property include a mortgage on real estate or a security interest in a car. A lien may be voluntarily granted by a debtor or may be obtained through a court proceeding. In some states, a court judgment may be a lien.

Certain entities purchase claims for an amount that is less than the face value of the claims. These entities may contact creditors offering to purchase their claims. Some written communications from these entities may easily be confused with official court

obligation to call its claim. However, if a creditor decides to call its claim, any transfer of that claim is subject to Bankruptcy Rule 3001(c), any provisions of the Bankruptcy

on the date the debtor filed for bankruptcy. 11 U.S.C. §101 (5). A claim may be secured or unsecured.

Claim Pursuant to 11 U.S.C. §503(b)(9): A claim for the value of any goods that were sold to the Debtor in the ordinary course of its business and were received by the Debtor within 20 days before the date of commencement of the above case. Attach documentation supporting such claim.

PRESS RELEASE

January 23, 2020

AN AFFILIATE OF SAINT-GOBAIN IN THE US TAKES ACTION TO ACHIEVE EQUITABLE AND PERMANENT RESOLUTION OF ITS ASBESTOS LIABILITIES

DBMP LLC, an affiliate of CertainTeed LLC, based in North Carolina that holds the legacy asbestos liabilities of the former CertainTeed Corporation, today announced that it has filed a voluntary petition for Chapter 11 relief in the U.S. Bankruptcy Court for the Western District of North Carolina in Charlotte in an effort to equitably and permanently resolve all of its current and future asbestos claims. Chapter 11 is a special legal process under U.S. law, which can take 3 to 8 years to run its course, that immediately stays all litigation thus allowing the filing company the time and protection to negotiate in a single forum an agreement approved by claimants and by the court.

DBMP LLC intends to seek court authority to establish a trust under Section 524(g) of the U.S. Bankruptcy Code to ensure that all individuals with current and future asbestos claims are treated fairly and equitably. Section 524(g) is a specific provision of the U.S. Bankruptcy Code that is applicable to companies that have been subject to and would continue to face substantial numbers of asbestos-related claims: dozens of companies – including a number of the most prominent defendants – have used this process to resolve their asbestos liabilities.

DBMP LLC is the parent company of another North Carolina entity, which operates manufacturing plants that are unaffected by the filing and will continue as usual with no impact on employees, customers and suppliers. All other affiliates of the Saint-Gobain Group in the U.S. are not part of the Chapter 11 filing and will continue to operate in normal course.

This bankruptcy filing is intended to enable DBMP LLC to achieve a certain, final and equitable resolution of all current and future claims arising from asbestos-containing products manufactured or sold by the former CertainTeed Corporation. While DBMP LLC pursues such a resolution through the bankruptcy process, all asbestos litigation will be stayed and all related costs suspended.

The establishment of a trust to pay all current and future asbestos claims is consistent with the values of DBMP LLC, and before it, the former CertainTeed Corporation, which have responsibly managed their asbestos-related issues. The trust will benefit both the claimants and DBMP LLC. Current and future plaintiffs with meritorious claims will be able to receive faster payment of their claims without the delay, stress and uncertainty of litigation in the tort system. At the same time, the creation and funding of such a trust will permanently resolve DBMP LLC's asbestos liabilities, eliminating cash flow volatility caused by the litigation.

DBMP LLC is taking this action at this time as a result of the increasing risks presented in the tort system. Despite the aging of the population and lessening opportunity for claimants to assert legitimate claims of exposure to CertainTeed Corporation asbestos-containing products, naming practices in the tort system continue to result in a steady volume of claims against DBMP LLC, with no foreseeable end in sight. Moreover, in general, settlement demands and verdicts in the tort system are escalating.

At Saint-Gobain Group level, the stay of litigation will result in all legal costs and indemnity payments related to DBMP LLC's numerous asbestos claims being suspended, and no more annual charges in relation to such claims (estimated at €88 million in 2019). Other than this effect on cash flow and annual charges, the impact of today's decision of DBMP LLC is not expected to materially affect Saint-Gobain's overall financial situation (including its current provisions), profitability, and cash generation profile. As of today, DBMP LLC and its subsidiary will no longer be consolidated with the Group and, as a result, their operating income (estimated at €12 million, on a full year basis) will no longer be included in the Group's operating income.

History of Asbestos Products and Litigation

DBMP LLC's asbestos liabilities relate primarily to various products manufactured and/or sold by CertainTeed Corporation, which last manufactured products containing asbestos in 1992. At the time of the bankruptcy filing, DBMP LLC had more than 60,000 claims, more than 32,000 of which are in active litigation.
